SAIL NUMBERS OF RACING YACHTS

NOTES ON THE RACING YACHT SECTION

The Section of the Register dealing with Racing Yachts is designed to serve two main purposes, viz:—

1. To list under the several Countries, yachts of the International, National and Ocean Racing Classes;
2. To provide in Part II a list of yachts, too small for inclusion in the main body of the Register, but which are governed by the International and National Authorities.

It will be seen, therefore, that Part II of the Racing Yacht Section goes some considerable way towards meeting the problem of listing small boats in the Register.

Identification of Racing Yachts

The following information may be of interest, viz:—

International Classes

All yachts of these classes should bear on the mainsail:—

(*a*) A number or emblem showing the class to which the yacht belongs;

(*b*) A letter showing the nationality;

(*c*) The number of the yacht in the particular class.

The following letters, indicating nationality, have been assigned by The International Yacht Racing Union.

A	Argentine	L	Finland
B	Belgium	M	Hungary
BL	Brazil	MD	Monaco
CZ	Czechoslovakia	N	Norway
D	Denmark	OE	Austria
E	Spain	P	Portugal
F	France	PH	The Philippines
G	Deutsche Bundesrepublik and West Berlin	PZ	Poland
		RC	Cuba
GE	Greece	RM	Roumania
GO	Deutsche Demokratischen Republik	S	Sweden
		SR	Union of Soviet Socialist Republics
H	Holland		
I	Italy	TK	Turkey
J	Japan	U	Uruguay
K	United Kingdom	US	United States of America
KA	Australia	V	Venezuela
KB	Bermuda	X	Chile
KC	Canada	Y	Yugoslavia
KZ	New Zealand	Z	Switzerland

Thus, a 6-metre yacht belonging to The United Kingdom and assigned the number 7 would bear on her mainsail:

$$\frac{6}{K7}$$

R.Y.A. Handicap Classes

The R.Y.A. Handicap Classes were assigned the numbers 1 to 99. The first 99 numbers having been exhausted, a second series of 1 to 99 was assigned, and subsequently a third series with a letter "Y" added was employed, thus:

1Y, 2Y etc.

Ocean Racing Classes

The United Kingdom Ocean Racing Class numbers are assigned by The Royal Ocean Racing Club. They run from 100 to 499; 601 to 699; 751 to 899 and 1,000 to —.

The R.O.R.C., at the request of the French, Italian and Spanish Authorities, have allotted:—

France	...	Nos.	500 to	600;	900 to	999;	1,400 to 1,499
Italy	...	„	700 „	750;	1,300 „	1,399	
Spain	...	„	1,200 „	1,299			

The Belgian, German, Dutch and Brazilian Authorities, however, have allotted their own separate numbers independently, each commencing with No. 1.

Apart from the International Metre Classes, yachts of the following International and National Classes bear the emblems on their mainsail as indicated below, viz:—

International Classes

D	Dragon	14	14ft. Dinghy
12	Sharpie 12 sq. metre	T	Tornado

These emblems or numbers appear above the letter indicating the nationality and the yacht's number, thus:

$$\frac{D}{K17}$$

National Classes

S	Swallow	▲	Merlin-Rocket
18	18ft.	F	Firefly
15	Swordfish	N	12ft. Dinghy

These emblems or numbers appear over the yacht's number, thus:

$$\frac{F}{26}$$

It is hoped that the Racing Yacht Section, used in conjunction with the Register itself, will facilitate the identification of yachts and at the same time be of interest to yachtsmen. It must be added, however, that the Editor of the Register has to depend upon the co-operation of the various National Authorities in making this Section as complete and up-to-date as possible.

BURGEES OF YACHT CLUBS, SAILING CLUBS AND DISTINGUISHING FLAGS OF YACHTSMEN

Reproductions of Club Burgees, Distinguishing Flags and alterations thereto received since the 1954 edition of the Register are embodied in the supplementary plates at the end of this section.

INDEX TO DISTINGUISHING FLAGS

To facilitate reference at sea, the Distinguishing Flags have been arranged according to colours :—
1st, Red ; 2nd, Yellow ; 3rd, Dark Blue ; 4th, Green ; 5th, Light Blue ; 6th, Chocolate ; 7th, Purple ; 8th, Black.
Combinations of two or more colours generally follow the principal colour in the order above.
In Flags with vertical designs the colour next the mast is the principal colour ; in horizontal designs, the top colour.

Whilst Lloyd's Register has no jurisdiction over the choice of flags or burgees, it is suggested that before a design is adopted care should be taken to avoid its confusion with any of the International Code of Signals. It would also be well to see that the proposed design does not conflict with any other flag reproduced in the Yacht Register.

REGISTER OF YACHTS

ADVERTISERS' ANNOUNCEMENTS

To YACHTSMEN

The **BUYER** of a second-hand yacht is advised to insist on sighting a Lloyd's Register of Shipping Condition Survey Report before concluding the deal.

The **SELLER** of a second-hand yacht is advised that he is more likely to obtain a fair price if he can produce a favourable Lloyd's Register of Shipping Condition Survey Report.

Both **PARTIES** can rest assured that Lloyd's Register of Shipping is entirely impartial.

Yacht Owners are advised to have new yachts built to Lloyd's Register of Shipping Class. This ensures a satisfactory job. A yacht carrying Lloyd's Register Class is more marketable.

The Yachting Section of Lloyd's Register of Shipping is all out to serve the Yachting Community.

Please address your enquiries regarding the above to:

THE SECRETARY, LLOYD'S REGISTER OF SHIPPING, 71, FENCHURCH STREET, LONDON, E.C.3

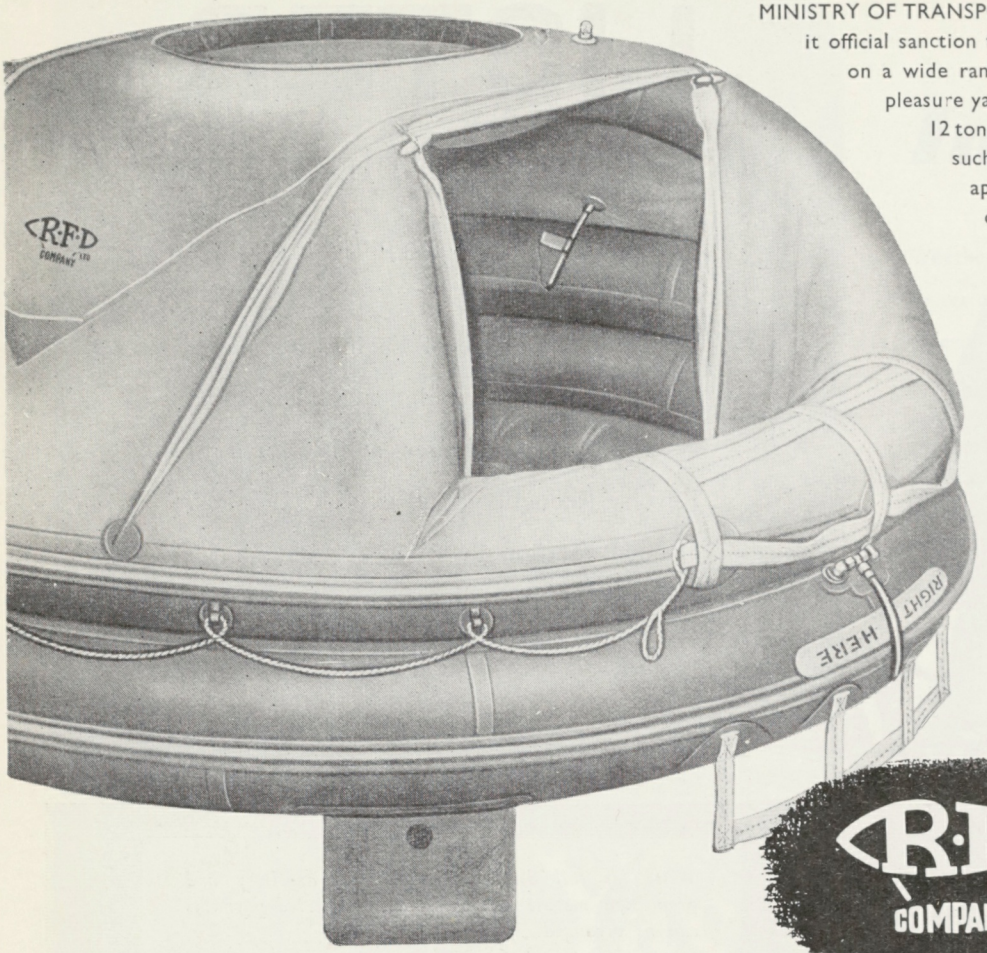
Safety in the Bag for all Yacht owners



MINISTRY OF TRANSPORT APPROVAL No. M(S) 3/14/02 ....brings with it official sanction for the appearance of R. F. D. RUBBER DINGHIES on a wide range of vessels, including yachts of CLASS 12 (i.e., pleasure yachts — other than ships of classes 1-6A exceeding 12 ton burden and not engaged in passenger traffic) where such equipment may be carried in lieu of buoyant apparatus. Practical, positive experience is in every detail, every feature of our latest MM Dinghies — the World's most advanced Lifesaving apparatus. Nothing experimental here but actually proved *under real emergency* conditions in the North Atlantic. This R. F. D. equipment — alone of its kind — is already in service with many shipping lines throughout the World. It is the only equipment of its type that has fulfilled the years of development in saving the lives of no less than three crews.

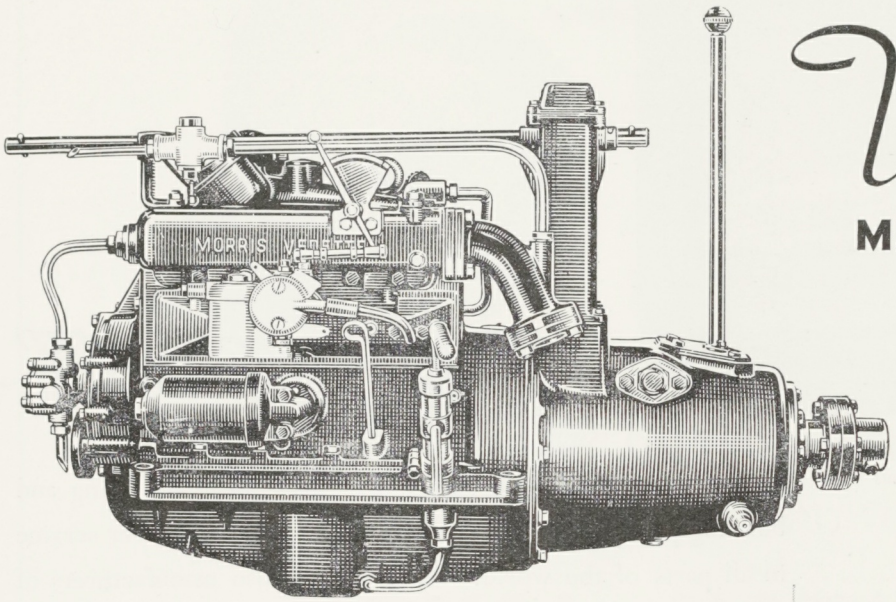
The MORRIS



Vedette

MARINE ENGINE

THE MORRIS "Vedette" has proved its suitability for many types of craft. Economical, both as regards first cost and maintenance, it is supported by a world-wide service. That is why boat builders and boat owners specify the "Vedette" with absolute confidence. The Morris "Vedette" is the smallest in the range of Morris Marine Engines which also includes the "Navigator" and the "Commodore". May we send you full details?

Made in the largest and most modern engine factory in Europe, Morris Marine Engines have been an outstanding success ever since they were first introduced 25 years ago. They have been adopted by a number of prominent boat-builders for a wide range of craft and are approved by Lloyd's for open sea service.

THORNYCROFT

For nearly one hundred years we have been designing and building pleasure and commercial craft for sea and river service in all parts of the world. Since we are also manufacturers of marine diesel engines and high-grade propellers a Thornycroft boat is thus the product of one organisation.

The benefit of our long and varied experience is available to owners and prospective owners, to those interested in marine diesel engines from 20 to 125 b.h.p., and in propellers designed to suit specific requirements.

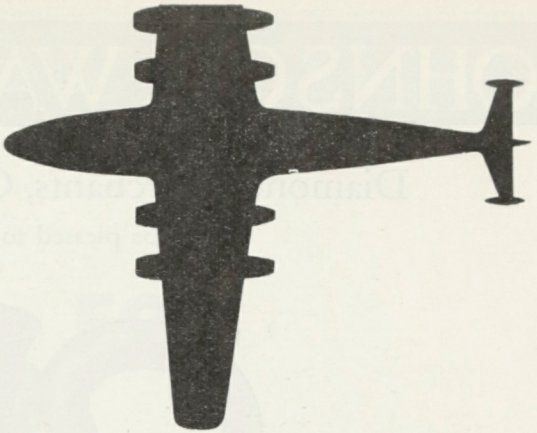
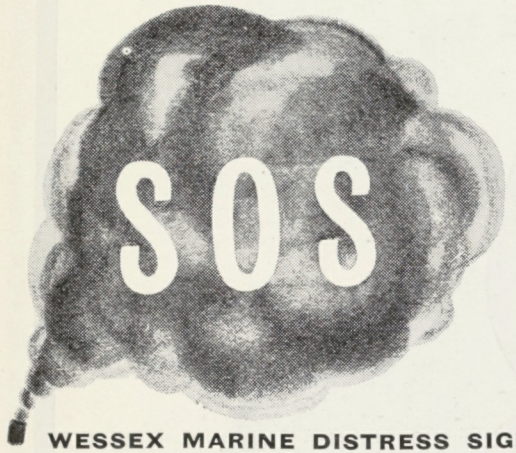
EMURGENCY!





In time of distress Wessex Marine Distress Signals send an imperative call for help in a universally known language. WESSEX DAYLIGHT SIGNALS emit a vivid orange cloud of smoke that unmistakably reveals your plight and position to passing ships, aircraft or shorewatchers. WESSEX PARACHUTE SIGNALS are for night use—they eject a bright red flare at a height of 1,000 ft. WESSEX HAND FLARES clearly pin-point your position to searching craft. Take this simple, inexpensive safety precaution—install Wessex Marine Signals.

WESSEX MARINE DISTRESS SIGNALS are officially approved by the Ministry of Transport. They fully conform to the requirements of the International Conference on Safety of Life at Sea, 1948, and to the Merchant Shipping (Life Saving Appliances) Rules, 1952.

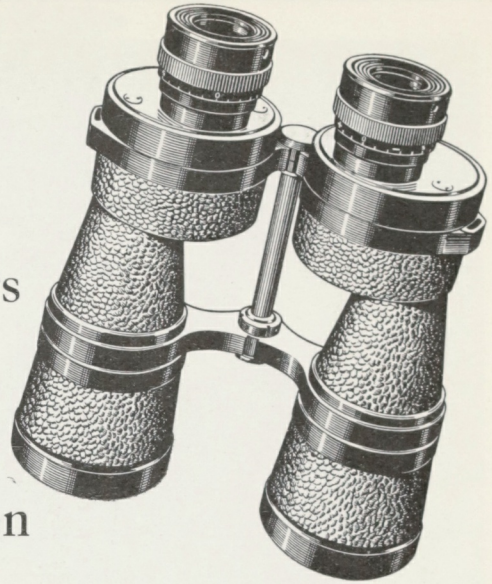
ROSS LONDON

Special Binoculars for Yachtsmen



EVEN if you never have the misfortune to drop your binoculars overboard, there is always the danger from salt spray. Damp will play havoc with any ordinary binoculars, reducing their efficiency in a very short time. The Ross Special Marine Binoculars, illustrated here and known as Tropicals, were originally developed for use by fishing and whaling fleets. They are hermetically sealed and rubber bonded, making them not only waterproof, but also shockproof. Both the exterior and interior surfaces of these glasses are fully protected against corrosion, so that even when completely immersed in water the optical components are unaffected.

The lens construction is particularly efficient, giving a field of view which is considerably wider than usual for glasses of this type. Two models are available of different power and the price includes sling, lanyard and solid leather case.

7 × 40 £46 - 1 - 7 *10 × 50 £54 - 13 - 5*

There are ten different models in the range of Ross binoculars and theatre glasses, which are fully described in our catalogue together with recommendations regarding their application. Copies are free on request.

Type E 6-8. 6-8 h.p. 2 cylinders. Petrol. Pet/par.

"IF IN DANGER, OR IN DOUBT,
GET YOUR STARTING HANDLE OUT!"

is the motto of "Brit" owners all over the World. They *know* from experience that "a Brit will see you through".

We believe that we are the oldest manufacturers of Marine I/C Engines in Great Britain.

If we are not—and doubtless someone will soon tell us—it will still not alter the fact that we have been manufacturing the famous "Brit" Marine I/C Engines for over half a century; and during all that time they have enjoyed a steadily increasing reputation for Reliability; Startability; and that Long Life which comes from Slow, Sm-o-o-th Running.

So many satisfied "Brit" owners have told us that no finer engine goes into any boat, that we try to live up to it.

There is a BRIT for every boat.

Drop us a line, or come and see us, about your Marine Power problems and requirements. We shall be delighted to give you all the help you want.

A CAP PRODUCT

RUSTPROOFING

ENSURE the complete protection of your hull and superstructures from corrosion with ease and economy.

"RUST-ANODE" cold galvanising is applied to steel by brush. It deposits a 92/95% pure zinc coat which guarantees against corrosion under maritime conditions.

Start right-by using "CAPALLA" chemical pre-treatment to remove and neutralise rust, followed by "RUST-ANODE" cold galvanising to render the surface rustproof.

Obtainable from leading chandlers and paint stores.
